About OFII

Created more than two decades ago, the Organization for International Investment (OFII) is a non-profit business association in Washington, D.C. representing the U.S. operations of many of the world's leading global companies, which insource millions of American jobs. OFII works to ensure the United States remains the top location for global investment. As such, OFII advocates for fair, non-discriminatory treatment of foreign-based companies and promotes policies that will encourage them to establish U.S. operations, increase American employment, and boost U.S. economic growth.
